

# ECLIPSE

## The Eclipse Kiosk

The Eclipse kiosk delivers unrivaled flexibility and high performance at an exceptional entry-level price. This high quality networked unit is designed for prestigious locations where aesthetics are of the utmost importance. The Eclipse kiosk may be customized with a range of options to meet virtually all information and transactional applications. In combination with a Scantech-ID omni-directional scanner the Eclipse can improve your sales by supplying on-line price information. It's also possible to provide a personal interactive service through customer loyalty cards and by displaying promotion and special offers. Suits every need.

If not? ... We are able to customize on your requirements.
